

PRODUCT DATA SHEET

SikaControl®-720 AER

Air-entraining admixture for concrete.

DESCRIPTION

SikaControl®-720 AER is an air-entraining admixture that creates ultra-stable air bubbles that are strong, small and closely spaced.

USES

Entraining controlled air content in a wide range of concrete types:

- Low slump concrete
- Flowable concrete
- High-temperature concrete
- Concrete with extended working times
- Lightweight and pre-stressed concrete
- Imparting workability to lean harsh mixes
- Reducing bleeding caused by grading deficiencies in the concrete materials

CHARACTERISTICS / ADVANTAGES

The use of SikaControl®-720 AER to entrain optimum air content in concrete results in the following improvements in concrete quality:

- Improved ability to entrain and retain air in concrete
- Improved air-void system in hardened concrete
- Reduced permeability - increased water tightness
- Improved plasticity and workability
- Reduced segregation and bleeding
- Increased freeze/thaw resistance
- Increased resistance to scaling
- Greatly improved stability of air entrainment

APPROVALS / STANDARDS

- ASTM C 260
- EN 934-2 : T5

PRODUCT INFORMATION

Packaging	05 ltr jerry can 20 ltr plastic can 200 ltr drum 1000 ltr IBC Bulk supply in tanker is possible on demand
Appearance / Colour	Colorless free flowing liquid
Shelf Life	12 months from date of production if stored in unopened, undamaged and original sealed packaging.
Storage Conditions	The product must be stored properly in undamaged, unopened original sealed packaging in dry conditions at temperatures between +5° C and +35° C. Protect from direct sunlight and frost.
pH-Value	≥ 6
Total Chloride Ion Content	Nil (EN 934-2)
Specific gravity	1.15 ± 0.03

APPLICATION INFORMATION

Recommended Dosage

The optimum dosage of SikaControl®-720 AER should be determined in trial mixes. As a guide, a dosage range of 40ml to 400ml per 100kg of cementitious material is recommended. As a starting point use 100ml / 100kg of cement and adjust in the light of results obtained.

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

APPLICATION

SikaControl®-720 AER is a ready-to-use liquid that is dispensed into the concrete together with the mixing water. The plasticizing effect and water reduction are higher if the admixture is added to the damp concrete after 50 to 70% of the mixing water has been added. The addition of SikaControl®-720 AER to dry aggregate or cement is not recommended.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request. It may be necessary to adapt the above disclaimer to specific local laws and regulations. Any changes to this disclaimer may only be implemented with permission of Sika® Corporate Legal in Baar.
